

EARTH CARE @LEWINSVILLE

A CALL FOR FAITHFUL STEWARDSHIP OF GOD'S CREATION

An Adult Education Class, March 10 – April 7, 2019

Lewinsville expects to receive certification soon by PC(USA) as an Earth Care Congregation. This is an excellent time to contemplate why we, as Christians, should care for the earth and how we can move forward as an Earth Care Congregation.

The Bible tells us that Creation - our natural world - is a divine thing. God saw all that God had made, and it was inherently good. Our faith urges us to act as stewards of God's creation: defending and healing it while working to assure justice for both the natural world and humanity. In this four-week module, we will discuss both the theological basis for "Earth Care" and concrete ways in which we can serve as stewards for the Earth in our daily lives. The first two weeks will focus on God's call to care for creation and each other, while the last two will center around actions we can take to help God's creation thrive, both in our personal lives and through our roles as members of Lewinsville.

- March 10 - God calls us to care for creation.
- March 17 - God commands us to love our neighbors as ourselves
- March 31 - God wants all creation to thrive
- April 7 - Bringing it all together as an Earth Care Congregation
