

EXODUS THEME – Purchased from ChurchThemes.com

Installed April 2019

IMAGE/PHOTO SIZES FOR WEBSITE (all photos and images can be 72 dpi for the website; 96 dpi is okay too. GIF images are smaller and load quicker, but WordPress does a pretty good job of loading JPG files as well):

- Sliders for Home Page: 1700 pixels x 500 pixels
- Home Page Highlight Boxes: 750 pixels x 750 pixels
- Page Header (Featured Image): 1700 pixels x 350 pixels
- Event Image (Featured Image): 450 pixels x 450 pixels
- Staff Image: 450 pixels x 450 pixels is what they recommend. But those sizes are too big for our use. Most of our staff images are 180 pixels wide x 208 pixels tall.
- Logo: 450 pixels x 100 pixels = maximum size recommended

IMAGE SIZE FOR ANY VIDEO is 1920 pixels wide x 1080 pixels tall. Resolution should be 96 dpi
